Administrative Decision

APPLICANT: Scott Lonsway

PROPERTY OWNER: The Resort at Skamania Coves, LLC

FILE NO.: NSA-14-46

PROJECT: Replace the existing double wide manufactured home with a 1,820 square foot constructed home, 720 square foot attached garage, access driveway, and associated utilities. The newly constructed home will contain 3 bedrooms and be located approximately 50 feet east of the existing manufactured home.

LOCATION: 45932 State Highway 14, Stevenson, Section 31 of T3N, R8E, W.M. and is identified as Skamania County Tax Lot Number 03-08-31-0-0-1200-00.

LEGAL: See attached page 8.

ZONING: General Management Area – Commercial Recreation (CR).

DECISION: Based upon the record and the Staff Report, the application of Scott Lonsway for The Resort at Skamania Coves, LLC, described above, **subject to the conditions set forth in this Decision**, is found to be consistent with SCC Title 22 and **is hereby approved**.

Although the proposed development is approved, it may not be buildable due to inadequate soils for septic and/or lack of potable water. These issues are under the jurisdiction of Skamania County's Building Division and the Skamania County Environmental Health Division.

Approval of this request does not exempt the applicant or successors in interest from compliance with all other applicable local, state, and federal laws.

CONDITIONS OF APPROVAL:

The following conditions are required to ensure that the subject request is consistent with Skamania County Code Title 22. **This document, outlining the conditions of approval, must be recorded by the applicant in the deed records of the Skamania County Auditor** in order to ensure notice of the conditions of approval to successors in interest. SCC §22.06.120(C)(2).

- 1) As per SCC §22.06.120(C)(2), this Administrative Decision **SHALL BE RECORDED** by the applicant in the County deed records prior to commencement of the approved project.
- 2) All developments shall be consistent with the enclosed site plan, unless modified by the following conditions of approval. If modified, the site plan shall be consistent with the conditions of approval. (See attached)
- 3) All structures, except fences, including eaves, awnings and overhangs shall meet the following setbacks: **Front yard:** 50 feet from the centerline of the street or road or 20 feet from the front property line, whichever is greater. **Side yard:** 20 feet. **Rear yard:** 20 feet. Setbacks are established from property lines, not fence lines. If any question arises regarding the location of the property lines, the applicant shall be required to hire a professional land surveyor to locate the property lines and mark them with temporary staking prior to a building permit being issued. Staking must remain during construction and all building inspections.
- 4) A variance has been granted, the proposed home is not required to meet the forest setback of 200' from adjacent property lines. The proposed home shall meet the minimum lot line setbacks established in Section 22.10.070(8).
- 5) Only that grading which is necessary for site development (building pads, utilities, etc.) is permitted. All graded areas shall be re-seeded with native vegetation prior to final inspection by the Community Development Department.
- 6) The applicant shall plant a minimum of 4 trees between the proposed replacement structure and State Highway 14 in order to provide screening from the key viewing area. At least half (1/2) of the plants shall be native species. The plantings shall be done in a

randomly staggered fashion so as to provide a natural appearance among the vegetation. The height of the initial plantings shall be at least 2 feet tall to achieve visual subordination within the next five years.

- 7) The screening trees to be planted shall be selected from the Recommended Plants for Screening from the Building in the Scenic Area Handbook , and the recommended planting size height of this document shall be followed.
- 8) Landscaping shall be installed as soon as practicable, and prior to project completion. Applicants and successors in interest for the subject parcel are responsible for the proper maintenance and survival of planted vegetation, and replacement of such vegetation that does not survive.
- 9) The exterior of the proposed structures shall be dark earth-tone in color. The exterior includes, but is not limited to, sides, doors, garage doors, decks, gutters, roofs and trim. The following colors submitted by the applicant are consistent with this condition and are hereby approved: for the house exterior walls - cedar board bat with stone belly band; trim - Falcon Brown by Benjamin Moor (or equal) and roofing - weathered wood architecture. The concrete used for the garage shall be stained dark earth tone in color and the garage doors shall be wood painted or stained with a dark earth tone color to match the house. Any proposed changes to these colors shall be submitted for review by the Community Development Department prior to construction.
- 10) The structures shall be composed of nonreflective materials or materials with low reflectivity.
- 11) The windows in the home shall be bronze over Low E, with an exterior visible light reflectivity rating of less than 11%. The applicant shall submit the manufacturer's specification details indicating this rating prior to the issuance of the building permit for the main house.
- 12) The garage door shall not consist of painted metal and is required to be wood painted or stained in a dark earth tone to match the house.
- 13) All exterior lighting shall be hooded and shielded at a 90-degree angle. Hoods/ shields shall be made of nonreflective, opaque material, which does not allow light to pass through.
- 14) The height of the replacement structure shall not exceed 22 feet on the north side and 19 feet on the south side as shown on the elevation drawings submitted with the application.
- 15) The existing tree cover screening the development from key viewing areas shall be retained.

- 16) At least half (1/2) of any trees planted for screening purposes shall be species native to the setting or commonly found in the area.
- 17) At least half (1/2) of any trees planted for screening purposes shall be coniferous to provide winter screening.
- 18) The applicant shall meet all conditions of approval enacted to achieve visual subordination prior to final inspection by the Community Development Department. The applicant is to coordinate all inspections with the Building Division. A final inspection approval will not be issued until compliance with all conditions of approval; including visual subordination criteria have been verified.
- 19) The Community Development Department will conduct at least two site visits during construction, one to verify the location of the structures as stated by the Administrative Decision and a second to be conducted after all foundation excavation has been completed including framing footers, but prior to pouring the foundation. A site visit for Final Inspection shall also be conducted. Each inspection may take up to four business days from the time of calling for the inspection. Inspections should be arranged by calling the Building Division Inspection Line at 509-427-3922.
- 20) It has been recommended by the Confederated Tribes and Bands of the Yakama Nation that a professional archaeologist monitor all ground disturbances associated with this project. Skamania County Community Development recommends, but does not require, that the property owners obtain a professional archaeologist for monitoring.
- 21) The following procedures shall be effected when cultural resources are discovered during construction activities:
 - a) Halt Construction. All construction activities within 100 feet of the discovered cultural resource shall cease. The cultural resources shall remain as found; further disturbance is prohibited.
 - b) Notification. The project applicant shall notify the Administrator and the Gorge Commission within twenty-four (24) hours of the discovery. If the cultural resources are prehistoric or otherwise associated with Native Americans, the project applicant shall also notify the Indian tribal governments within twenty-four (24) hours.
 - c) Survey and Evaluations. The Gorge Commission shall survey the cultural resources after obtaining written permission from the landowner and appropriate permits from the DAHP. (See Revised Code of Washington 27.53) It shall gather enough information to evaluate the significance of the cultural resources. The survey and evaluation shall be documented in a report that generally follows the provisions in Section 22.22.030 of this Chapter. Based upon the survey and evaluation report and any written comments, the Administrator shall make a final decision on

whether the resources are significant. Construction activities may recommence if the cultural resources are not significant.

- d) Mitigation Plan. Mitigation plans shall be prepared according to the information, consultation and report provisions contained in Section 22.22.050 of this Chapter. Construction activities may recommence when conditions in the mitigation plan have been executed.
- 22) The following procedures shall be effected when human remains are discovered during a cultural resource survey or during construction. Human remains means articulated or disarticulated human skeletal remains, bones or teeth, with or without attendant burial artifacts.
- a) Halt of Activities. All survey, excavation and construction activities shall cease.
 - b) Notification. Local law enforcement officials, the Administrator, the Gorge Commission, and the Indian tribal governments shall be contacted immediately.
 - c) Inspection. The county coroner, or appropriate official, shall inspect the remains at the project site and determine if they are prehistoric/ historic or modern. Representatives of the Indian tribal governments shall be contacted immediately and have an opportunity to monitor the inspection.
 - d) Jurisdiction. If the remains are modern, the appropriate law enforcement official shall assume jurisdiction and the cultural resource protection process may conclude.
 - e) Treatment. The procedures set out in RCW 27.44 and 68.05 shall generally be implemented if the remains are prehistoric/ historic. If human remains will be reinterred or preserved in their original position, a mitigation plan shall be prepared in accordance with the consultation and report requirements set out in Section 22.22.050 of this Chapter. The mitigation plan shall accommodate the cultural and religious concerns of Native Americans. The cultural resource protection process may conclude when conditions set forth in Section 22.22.050(C) of this Chapter are met and the mitigation plan is executed.

Dated and signed this 1st day of October, 2015, at Stevenson, Washington.

NOTES

Any new residential development, related accessory structures such as garages or workshops, fences, and additions or alterations not included in this approved site plan, will require a new application and review.

EXPIRATION

As per SCC §22.06.150(A), this Administrative Decision approving a proposed development action shall become void in two years if the development is not commenced within that period, or once development has commenced the development action is discontinued for any reason for one continuous year or more.

If the development does not include a structure the permit shall expire two years after the date the land use approval was granted unless the use or development was established according to all specifications and conditions of approval in the approval. For land divisions, "established" means the final deed or plat has been recorded with the county auditor.

If the development includes a **structure** the permit shall expire when construction has not commenced within two (2) years of the date the land use approval was granted; or once the structure has been started and if the structure has not been completed within two (2) years of the date of commencement of construction the permit shall expire. Completion of the structure for this purpose means the completion of the exterior surface(s) of the structure; and compliance with all conditions of approval in the land use approval, including, but not limited to, painting of the exterior of the structure.

APPEALS

The Director reserves the right to provide additional comment and findings of fact regarding this decision, if appealed.

This Administrative Decision shall be final unless reversed or modified on appeal. A written Notice of Appeal form must be filed by an interested person within 20 days from the date hereof. Appeals are to be made to the Skamania County Hearing Examiner, P.O. Box 790, Stevenson, WA 98648. Notice of Appeal forms and mailing lists are available at the Community Development Department and must be accompanied by a \$1,300.00 nonrefundable-filing fee and a Certificate of Mailing.

The final determination of the Environmental Threshold Determination related to this underlying government action can be appealed to a court of competent jurisdiction, along with the underlying government action, only by the parties with standing to the Environmental Threshold Determination. If the underlying government action was exempt from SEPA review, this section does not apply.
