**ADMINISTRATIVE DECISION**

**APPLICANT:** Thomas Lumpkin

**FILE NO.:** NSA-16-14

**DESCRIPTION:** New agricultural cultivation (vineyard) of approximately 3.0 acres and installation of approximately 1,600 ft. of 8 ft. tall deer fencing.

**LOCATION:** 10481 Cook Underwood Road, Underwood and identified as Skamania County Parcel #03-10-20-0-0-1100-00.

**LEGAL:** See attached page 6.

**ZONING:** General Management Area – Residential (R-5)

**DECISION:** Based upon the record and the Staff Report, the applicant's proposal, described above, is found to be consistent with SCC Title 22 and is hereby **APPROVED** subject to the conditions set forth below.

Approval of this request does not exempt the applicant or successors in interest from compliance with all other applicable local, state, and federal laws.

Skamania County Community Development Department  
NSA-16-14 (Lumpkin) Administrative Decision  
Page 2

### CONDITIONS OF APPROVAL:

The following conditions are required to ensure that the subject request is consistent with Skamania County Code Title 22. **THIS DOCUMENT, OUTLINING THE CONDITIONS OF APPROVAL, MUST BE RECORDED BY THE APPLICANT IN THE DEED RECORDS OF THE SKAMANIA COUNTY AUDITOR** in order to ensure notice of the conditions of approval to successors in interest. SCC §22.06.120(C)(2).

1. **As per SCC §22.06.120(C)(2), this Administrative Decision SHALL BE RECORDED by the applicant in the County deed records prior to commencement of the approved project.**
2. All developments shall be consistent with the enclosed site plan, unless modified by the following conditions of approval. If modified, the site plan shall be consistent with the conditions of approval.
3. All structures, except fences, including eaves, awnings and overhangs shall meet the following setbacks: Front yard: 50 feet from the centerline of the street or road or 20 feet from the front property line, whichever is greater. Side yard: 20 feet. Rear yard: 20 feet. Setbacks are established from property lines, not fence lines. If any question arises regarding the location of the property lines, the applicant shall be required to hire a professional land surveyor to locate the property lines and mark them with temporary staking prior to a building permit being issued. Staking must remain during construction and all building inspections.
4. This approval is for a vineyard and associated structures only. A winery has not been approved for the subject property. Under the code in affect as of the date of this approval, a winery, in conjunction with onsite viticulture, upon a showing that the processing of wine is from grapes grown on the subject farm or in the local region is an allowable review use in the GMA – Residential zone. Any future winery proposal on the subject property is subject to the requirements of Title 22, requiring approval of a National Scenic Land Use Application, only after the vineyard has been established.
5. The applicant shall meet all conditions of approval enacted to achieve visual subordination prior to final inspection by the Community Development Department. The applicant is to coordinate all inspections with the Building Division. A final inspection approval will not be issued until compliance with all conditions of approval; including visual subordination criteria have been verified.
6. The Community Development Department will conduct at least two site visits during construction, one siting inspection to verify the staked location of the structures prior to any ground disturbance taking place; and a second to be conducted after all foundation excavation has been completed including framing footers, but prior to pouring the foundation. A site visit for Final Inspection shall also be conducted. Each inspection may take up to four business days from the time of calling for the inspection. Inspections should be arranged by calling the Community Development inspection line at 509-427-3922 or by emailing permitcenter@co.skamania.wa.us.
7. The proposed trellises shall be dark earth-tone in color. The applicant's proposal to use natural wood posts and dark green t-posts satisfies this requirement. However, in the event that the trellises do not blend in with the dark earth-tones at the project site and surrounding landscape,

Skamania County Community Development Department  
 NSA-16-14 (Lumpkin) Administrative Decision  
 Page 3

the applicant shall stain or finish them in a dark earth-tone color approved by the Community Development Department.

8. Existing tree cover shall be retained as much as possible, except as is necessary for site development, safety purposes or as part of forest management practices.
9. Except as is necessary for site development or safety purposes, the existing tree cover screening the development from key viewing areas shall be retained.
10. The following procedures shall be effected when cultural resources are discovered during construction activities:
  - a. Halt Construction. All construction activities within 100 feet of the discovered cultural resource shall cease. The cultural resources shall remain as found; further disturbance is prohibited.
  - b. Notification. The project applicant shall notify the Administrator and the Gorge Commission within twenty-four (24) hours of the discovery. If the cultural resources are prehistoric or otherwise associated with Native Americans, the project applicant shall also notify the Indian tribal governments within twenty-four (24) hours.
  - c. Survey and Evaluations. The Gorge Commission shall survey the cultural resources after obtaining written permission from the landowner and appropriate permits from the DAHP (See Revised Code of Washington 27.53). It shall gather enough information to evaluate the significance of the cultural resources. The survey and evaluation shall be documented in a report that generally follows the provisions in Section 22.22.030 of this Chapter. Based upon the survey and evaluation report and any written comments, the Administrator shall make a final decision on whether the resources are significant. Construction activities may recommence if the cultural resources are not significant.
  - d. Mitigation Plan. Mitigation plans shall be prepared according to the information, consultation and report provisions contained in Section 22.22.050 of this Chapter. Construction activities may recommence when conditions in the mitigation plan have been executed.
11. The following procedures shall be effected when human remains are discovered during a cultural resource survey or during construction. Human remains means articulated or disarticulated human skeletal remains, bones or teeth, with or without attendant burial artifacts.
  - a. Halt of Activities. All survey, excavation and construction activities shall cease.
  - b. Notification. Local law enforcement officials, the Administrator, the Gorge Commission, and the Indian tribal governments shall be contacted immediately.
  - c. Inspection. The county coroner, or appropriate official, shall inspect the remains at the project site and determine if they are prehistoric/ historic or modern. Representatives of the Indian tribal governments shall be contacted immediately and have an opportunity to monitor the inspection.
  - d. Jurisdiction. If the remains are modern, the appropriate law enforcement official shall assume jurisdiction and the cultural resource protection process may conclude.
  - e. Treatment. The procedures set out in RCW 27.44 and 68.05 shall generally be implemented if the remains are prehistoric/ historic. If human remains will be reinterred or preserved in their original position, a mitigation plan shall be prepared in accordance with the consultation and report requirements set out in Section 22.22.050 of this Chapter. The mitigation plan shall accommodate the cultural and religious concerns of Native Americans. The cultural resource protection process may conclude when conditions set forth in Section 22.22.050(C) of this Chapter are met and the mitigation plan is executed.

**NOTE:**

Any new development not included in this approved site plan, will require a new application and review.

**EXPIRATION:**

As per SCC §22.06.150(A), this Administrative Decision approving a proposed development action shall become void in two years if the development is not commenced within that period, or once development has commenced the development action is discontinued for any reason for one continuous year or more.

If the development does not include a structure the permit shall expire two years after the date the land use approval was granted unless the use or development was established according to all specifications and conditions of approval in the approval. For land divisions, "established" means the final deed or plat has been recorded with the county auditor.

If the development includes a **structure** the permit shall expire when construction has not commenced within two (2) years of the date the land use approval was granted; or once the structure has been started and if the structure has not been completed within two (2) years of the date of commencement of construction the permit shall expire. Completion of the structure for this purpose means the completion of the exterior surface(s) of the structure; and compliance with all conditions of approval in the land use approval, including, but not limited to, painting of the exterior of the structure.

**APPEALS:**

**The Director reserves the right to provide additional comment and findings of fact regarding this decision, if appealed.**

This Administrative Decision shall be final unless reversed or modified on appeal. A written Notice of Appeal form must be filed by an interested person within 20 days from the date hereof. Appeals are to be made to the Skamania County Hearing Examiner, P.O. Box 1009, Stevenson, WA 98648. Notice of Appeal forms and mailing lists are available at the Community Development Department and must be accompanied by a \$2,450.00 nonrefundable-filing fee and a Certificate of Mailing.

The final determination of the Environmental Threshold Determination related to this underlying government action can be appealed to a court of competent jurisdiction, along with the underlying government action, only by the parties with standing to the Environmental Threshold Determination. If the underlying government action was exempt from SEPA review, this section does not apply.

**A copy of this Decision, including the Staff Report, was sent to the following:**

## Legal Description

NSA-16-14 (Lumpkin)

A tract of land in the Southeast Quarter of the Southwest Quarter of Section 20, Township 3 North, Range 10 East of the Willamette Meridian, in the County of Skamania, State of Washington, described as follows:

That portion of the following described tract lying North of the Cooks Underwood County Road and containing 8.18 acres, more or less: Beginning at the Southeast corner of the Southeast Quarter of the Southwest Quarter of said Section (South Quarter Corner), thence West 30 rods (495.0 ft.); thence North 531  $\frac{1}{2}$  rods (880.0 feet); thence East 30 rods (495.0 feet); thence South 531  $\frac{1}{2}$  rods (880.0 feet) to the point of beginning.

EXCEPTING therefrom the following:

That portion conveyed to Steven Koch, et ux, by instrument recorded in Book 177, Page 947.

That portion conveyed to Nelson L. Meaghers, et ux, by instrument recorded in Book 66, Page 732.

That portion conveyed to David J. Hoagland, et ux, by instrument recorded January 29, 1990 in Book 117, Page 634.

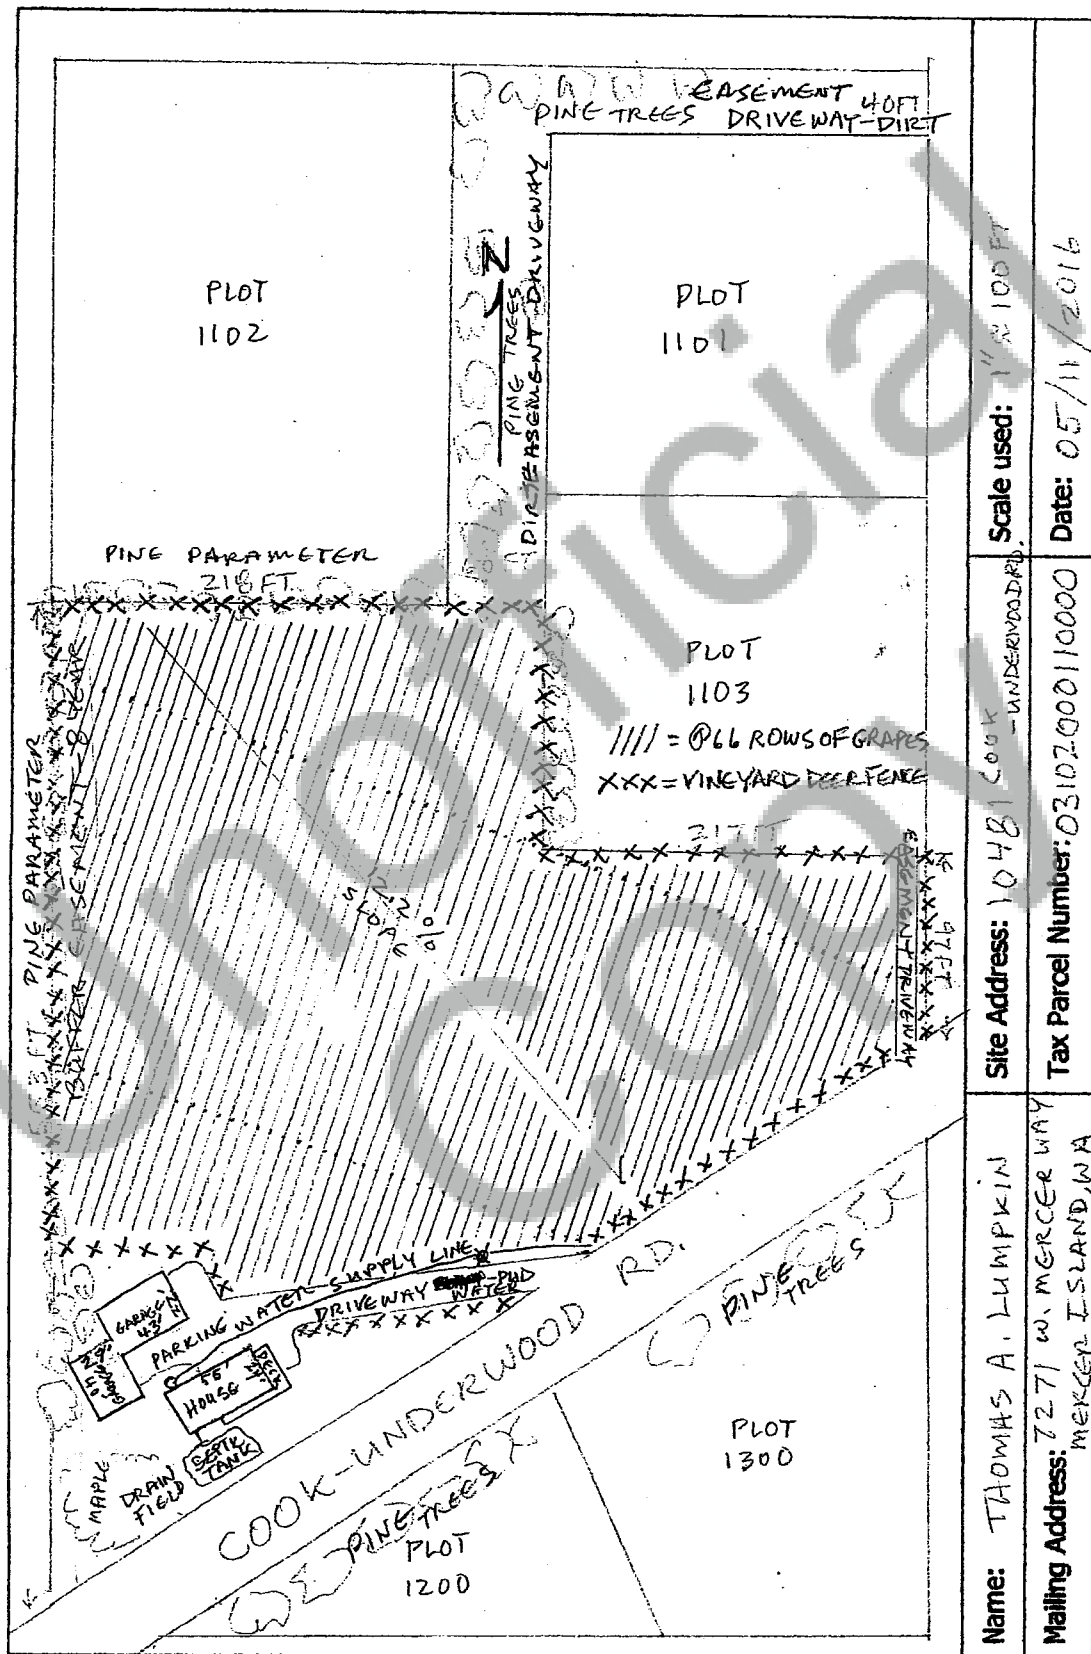

**Site Plan**

NSA-16-14 (Lumpkin)

**SITE PLAN FOR PLOT 1100**

\*Use this template or attach a separate site plan drawing.

## Elevations

NSA-16-14 (Lumpkin)

## FENCE

For the deer fence design: I will use light green treated wood posts every 100 ft and at corners. Between treated wood posts I will use steel green "T" posts every 20 ft. The deer wire will look like image below. The fence will be 8 ft high.

## FRENCH STYLE TRELLIS
