ADMINISTRATIVE DECISION

APPLICANT: Lewallen Architecture, for William Cregar

FILE NO.: NSA-18-27

DESCRIPTION: Construct new single-family residence with attached garage and associated site improvements.

LOCATION: Archer Mountain Road, Skamania, and identified as Skamania County Parcel No. 02-06-32-0-0-0600-00.

LEGAL: The Northwest Quarter of the Southeast Quarter of the Northeast Quarter of Section 32, Township 2 North, Range 6 East of the Willamette Meridian.

ZONING: GMA - Small Woodland (F-3) 20

DECISION: Based upon the record and the Staff Report, the applicant's proposal, described above, is found to be consistent with SCC Title 22 and is hereby **APPROVED** subject to the conditions set forth below.

Although the proposed development is approved, it may not be buildable due to inadequate soils for septic and/or lack of potable water. These issues are under the jurisdiction of Skamania County's Building Division and the Skamania County Environmental Health Division. Approval of this request does not exempt the applicant or successors in interest from compliance with all other applicable local, state, and federal laws.

CONDITIONS OF APPROVAL:

The following conditions are required to ensure that the subject request is consistent with Skamania County Code Title 22. **THIS DOCUMENT, OUTLINING THE CONDITIONS OF APPROVAL, MUST BE RECORDED BY THE APPLICANT IN THE DEED RECORDS OF THE SKAMANIA COUNTY AUDITOR** in order to ensure notice of the conditions of approval to successors in interest. SCC §22.06.120(C)(2).

1. As per SCC §22.06.120(C)(2), this Administrative Decision **SHALL BE RECORDED** by the applicant in the County deed records prior to commencement of the approved project.
2. A declaration shall be signed by the landowner and recorded with the Skamania County Auditor specifying the owners, successors, heirs, and assigns of the subject parcel are aware that adjacent and nearby operators are entitled to carry on accepted farm and forest practices on lands classified as F-1, F-2, F-3, Ag-1 and Ag-2.
3. All developments shall be consistent with the approved site plan on file with Skamania County Community Development, unless modified by the following conditions of approval. If modified, the site plan shall be consistent with the conditions of approval.
4. The following are the minimum required setbacks for all structures except fences: FRONT YARD: fifty (50) feet from the centerline of the street or road or twenty (20) feet from the front property line, whichever is greater; SIDE YARD: twenty (20) feet, and REAR YARD: twenty (20) feet.
5. The development shall comply with the fire safety provisions for the Small Woodland (F-3) Zone listed in Skamania County Code Section 22.14.050(A).
6. All buildings shall be surrounded by a maintained fuel break of fifty feet. Irrigated or fire-resistant vegetation may be planted within the fuel break, including green lawns and low shrubs (less than twenty-four inches in height). Trees should be placed greater than fifteen feet between the crowns and pruned to remove dead and low (less than eight feet) branches. Accumulated leaves, needles and other dead vegetation shall be removed from beneath trees. Hazardous fuels shall be removed within the fuel break area.
7. At least one standpipe shall be installed at a minimum of fifty feet from the structure(s).
8. A pond, stream, tank or sump with storage of not less than one thousand gallons, or a well or water system capable of delivering twenty gallons per minute shall be provided. If a well pump is located on-site, the electrical service shall be separate from the dwelling.
9. Access drives shall be constructed to a minimum of twelve feet in width and not exceed a grade of twelve percent. Turnouts shall be provided at a minimum of every five hundred feet. Access drives shall be maintained to a level that is passable to fire equipment.
10. Telephone and power supply shall be underground if possible.

11. Roofs of structures shall be made of fire-resistant materials, such as fiberglass shingle or tile.
12. Any chimney or stovepipe on any structure for use with a wood stove or fireplace should be screened with no coarser than one-fourth inch mesh metal screen that is noncombustible and corrosion resistant and should be equipped with a spark arrestor.
13. All structural projections such as balconies, decks and roof gables should be built with fire resistant materials equivalent to that specified in the Uniform Building Code.
14. Attic openings, soffit vents, foundation louvers or other ventilation openings on dwellings and accessory structures shall be screened with no coarser than one-fourth inch mesh metal screen that is noncombustible and corrosion resistant.
15. The administrator shall conduct a review of the development within one year to assure compliance with the fire safety provisions embodied in SCC 22.14.050(A).
16. Only grading which is necessary for site development (building pads, utilities, etc.) is permitted. All graded areas left bare shall be re-seeded with native grasses or vegetation promptly and prior to final inspection by the Community Development Department.
17. The applicant shall meet all conditions of approval enacted to achieve visual subordination prior to final inspection by the Community Development Department. The applicant is to coordinate all inspections with the Building Division. A final inspection approval will not be issued until compliance with all conditions of approval; including visual subordination criteria have been verified.
18. The Community Development Department will conduct at least two site visits during construction, one siting inspection to verify the staked location of the structures prior to any ground disturbance taking place; and a second to be conducted after all foundation excavation has been completed including framing footers, but prior to pouring the foundation. A site visit for Final Inspection shall also be conducted. Each inspection may take up to four business days from the time of calling for the inspection. Inspections should be arranged by calling the Community Development inspection line at 509-427-3922 or by emailing permitcenter@co.skamania.wa.us.
19. Except as is necessary for construction of access roads, building pads, leach fields, etc., the existing tree cover screening the development from key viewing areas shall be retained. The applicant and successors in interest shall retain all trees between 50-100 feet from the home. At least one half of any trees planted for screening purposes shall be native to the setting, and at least one half of planted screening trees shall be coniferous to provide winter screening. All screening trees and plantings are required to be maintained. Dead and dying screening trees shall be replaced in kind.
20. The applicant shall plant vegetation as shown on the approved site plan to achieve visual subordination. At least four (4) evergreen trees, at least one (1) deciduous tree, at least four (4) shrubby trees and at least six (6) shrubs shall be planted in the areas shown on the approved site plan. All required shrubs and shrubby trees shall be planted within six (6) feet

of the southeast side of the home. All new plantings shall be selected from the recommended plants list found in the Scenic Resources Implementation Handbook.

21. All vegetation shall be sized to provide sufficient screening to make the development visually subordinate within five years or less from the commencement of construction. Applicants and successors in interest for the subject parcel are responsible for the proper maintenance and survival of planted vegetation, and replacement of such vegetation that does not survive. Landscaping shall be installed as soon as practicable, and prior to project completion.
22. The exterior of all structural development shall be dark earth-tones in color. The exterior includes, but is not limited to, sides, doors, garage doors, decks, gutters, roofs and trim. The following colors submitted by the applicant are consistent with this condition and are hereby approved: for the exterior walls: Minwax stain - True Black 274 (appears black), American Fiber - Erebrus 191 (appears dark grey), Cabot oil finish -Burma Blackwood (appears dark brown). Trim: Benjamin Moore- Black Beauty 2128-10 (appears black). Windows: Marvin-Ebony trim (appears black). Terraces: Solomon Colors -2% toffee (appears dark brown) Foundation: Solomon Colors - 2% toffee (appears dark brown), EcoStain - Titanium grey (appears dark grey). Roof: Everguard - dark bronze (appears dark grey), dark gravel ballast (appears dark grey). All vertical concrete left exposed shall be finished in a dark grey or dark brown color consistent with these approved colors. Any proposed changes to these colors shall be submitted for review by the Community Development Department for acceptably dark earth-tones prior to their application.
23. Community Development staff shall inspect the home for acceptably dark-earth colors before issuing final approval for this project. Additional coats of color may be required in order to achieve acceptable dark-earth tones before final NSA approval is issued.
24. The exterior of buildings on lands seen from key viewing areas shall be composed of nonreflective materials or materials with low reflectivity. The proposed list of fiber cement siding, board form or cast concrete, ballasted or rubber coated roofs and natural wood or fiber cement trim satisfies this condition, and are approved. All glass surfaces facing key viewing areas shall be Low-E glass in a grey tint with 11% or lower reflectivity. Any proposed changes to the approved materials list shall be submitted to the Community Development department to review for consistency with the construction materials requirements prior to their use.
25. All exterior lighting shall be hooded or shielded at a 90° angle. Hoods/shields should be made of a non-reflective, opaque material, which does not allow light to pass through.
26. The following procedures shall be effected when cultural resources are discovered during construction activities:
 - a. Halt Construction. All construction activities within 100 feet of the discovered cultural resource shall cease. The cultural resources shall remain as found; further disturbance is prohibited.
 - b. Notification. The project applicant shall notify the Administrator and the Gorge Commission within twenty-four (24) hours of the discovery. If the cultural resources

- are prehistoric or otherwise associated with Native Americans, the project applicant shall also notify the Indian tribal governments within twenty-four (24) hours.
- c. Survey and Evaluations. The Gorge Commission shall survey the cultural resources after obtaining written permission from the landowner and appropriate permits from the DAHP (See Revised Code of Washington 27.53). It shall gather enough information to evaluate the significance of the cultural resources. The survey and evaluation shall be documented in a report that generally follows the provisions in Section 22.22.030 of this Chapter. Based upon the survey and evaluation report and any written comments, the Administrator shall make a final decision on whether the resources are significant. Construction activities may recommence if the cultural resources are not significant.
 - d. Mitigation Plan. Mitigation plans shall be prepared according to the information, consultation and report provisions contained in Section 22.22.050 of this Chapter. Construction activities may recommence when conditions in the mitigation plan have been executed.
27. The following procedures shall be effected when human remains are discovered during a cultural resource survey or during construction. Human remains means articulated or disarticulated human skeletal remains, bones or teeth, with or without attendant burial artifacts.
- a. Halt of Activities. All survey, excavation and construction activities shall cease.
 - b. Notification. Local law enforcement officials, the Administrator, the Gorge Commission, and the Indian tribal governments shall be contacted immediately.
 - c. Inspection. The county coroner, or appropriate official, shall inspect the remains at the project site and determine if they are prehistoric/ historic or modern. Representatives of the Indian tribal governments shall be contacted immediately and have an opportunity to monitor the inspection.
 - d. Jurisdiction. If the remains are modern, the appropriate law enforcement official shall assume jurisdiction and the cultural resource protection process may conclude.
 - e. Treatment. The procedures set out in RCW 27.44 and 68.05 shall generally be implemented if the remains are prehistoric/ historic. If human remains will be reinterred or preserved in their original position, a mitigation plan shall be prepared in accordance with the consultation and report requirements set out in Section 22.22.050 of this Chapter. The mitigation plan shall accommodate the cultural and religious concerns of Native Americans. The cultural resource protection process may conclude when conditions set forth in Section 22.22.050(C) of this Chapter are met and the mitigation plan is executed.

Dated and signed this 6th day of April, 2020, at Stevenson, Washington.

Mike Beck

NOTE:

Any new development not included in the approved site plan on file with the Skamania County Community Development department will require a new application and review.

EXPIRATION:

As per SCC §22.06.150(A), this Administrative Decision approving a proposed development action shall become void in two years if the development is not commenced within that period, or once development has commenced the development action is discontinued for any reason for one continuous year or more.

If the development does not include a structure the permit shall expire two years after the date the land use approval was granted unless the use or development was established according to all specifications and conditions of approval in the approval. For land divisions, "established" means the final deed or plat has been recorded with the county auditor.

If the development includes a **structure** the permit shall expire when construction has not commenced within two (2) years of the date the land use approval was granted; or once the structure has been started and if the structure has not been completed within two (2) years of the date of commencement of construction the permit shall expire. Completion of the structure for this purpose means the completion of the exterior surface(s) of the structure; and compliance with all conditions of approval in the land use approval, including, but not limited to, painting of the exterior of the structure.

APPEALS:

The Director reserves the right to provide additional comment and findings of fact regarding this decision, if appealed.

This Administrative Decision shall be final unless reversed or modified on appeal. A written Notice of Appeal form must be filed by an interested person within 20 days from the date hereof. Appeals are to be made to the Skamania County Hearing Examiner, P.O. Box 1009, Stevenson, WA 98648. Notice of Appeal forms and mailing lists are available at the Community Development Department and must be accompanied by a \$2,450.00 nonrefundable-filing fee and a Certificate of Mailing.

The final determination of the Environmental Threshold Determination related to this underlying government action can be appealed to a court of competent jurisdiction, along with the underlying government action, only by the parties with standing to the Environmental Threshold Determination. If the underlying government action was exempt from SEPA review, this section does not apply.
