THENCE North 88° 56' 50" West, along the said South line, for a distance of 357.22 feet and the **TRUE POINT OF BEGINNING.**

Provisions

Schedule and Inspections

Department of Ecology personnel, upon presentation of proper credentials, shall have access at reasonable times, to the project location, and to inspect at reasonable times, records of water use, wells, diversions, measuring devices and associated distribution systems for compliance with water law.

Easement Right-of-Way

The water source and/or transmission facilities are not wholly located upon land owned by the certificate holder. Issuance of this amended certificate by this Department does not convey a right of access to, or other right to use, land which the certificate holder does not legally possess. Obtaining such a right is a private matter between the certificate holder and owner of that land.

Fish Screening Criteria

The intake shall be screened in accordance with Department of Fish and Wildlife screening criteria. See: <http://wdfw.wa.gov/about/contact/general>

Amended Superseding Certificate

This superseding certificate is the result of an administrative action to correction of a ministerial error and shall not be construed as validation as to the extent of the certificate as originally authorized. The amounts provided on the superseding water right reflect that which was originally authorized on the certificate, but is not confirmed by Ecology in the recording of said right. The actual amounts authorized by the superseding certificates are subject to the historic beneficial use of water under water right document.

The Water Resources Act of 1971 specifies certain criteria regarding utilization and management of the water of the State in the best public interest. Issuance of this certificate was based on sufficient waters available, at least during portions of the year. However, it is pointed out to the certificate holder that [their] use of the water may be subject to regulations at certain times, based on the necessity to maintain water quantities sufficient for preservation of natural environment.

The right to use of the water aforesaid hereby confirmed is restricted to the lands or place of use herein described, except as provided in RCW 90.03.380, 90.03.390, and 90.44.100.

This certificate of water right is specifically subject to relinquishment for non-use of water as provided in RCW 90.14.180.

*Given under my hand and the seal of this office at
Lacey, Washington, this 5th day of October 2023.*

Laura Watson, Director
Department of Ecology
