ADMINISTRATIVE DECISION

APPLICANT: Heidi Diestelhorst & Laurent Lamiche
FILE NO.: NSA-24-45
DESCRIPTION: Proposed construction of a 270 sf accessory structure and a 297 sf in-ground pool.
LOCATION: 1101 Kollock Knapp Rd
PID #: 03-10-20-0-0-1700-00
ZONING: GMA - Small Woodland (F-3) 40
DECISION: Based upon the record and the Staff Report, the applicant's proposal, described above, is found to be consistent with SCC Title 22 and is hereby **APPROVED** subject to the conditions set forth below.

Although the proposed development is approved, it may not be buildable due to inadequate soils for septic and/or lack of potable water. These issues are under the jurisdiction of Skamania County's Building Division and the Skamania County Environmental Health Division. Approval of this request does not exempt the applicant or successors in interest from compliance with all other applicable local, state, and federal laws.

CONDITIONS OF APPROVAL:

The following conditions are required to ensure that the subject request is consistent with Skamania County Code Title 22. **THIS DOCUMENT, OUTLINING THE CONDITIONS OF APPROVAL, MUST**

BE RECORDED BY THE APPLICANT IN THE DEED RECORDS OF THE SKAMANIA COUNTY AUDITOR in order to ensure notice of the conditions of approval to successors in interest. SCC §22.06.120(C)(2).

1. As per SCC §22.06.120(C)(2), this Administrative Decision **SHALL BE RECORDED** by the applicant in the County deed records prior to commencement of the approved project.
2. All development shall be consistent with the approved site plan, unless modified by the conditions of approval. If modified, the site plan shall be consistent with the conditions of approval. While the development satisfies the required lot line setbacks, a **CONDITION OF APPROVAL** shall state the following are the minimum required setbacks for all structures except fences: **FRONT YARD**: fifty (50) feet from the centerline of the street or road or twenty (20) feet from the front property line, whichever is greater; **SIDE YARD**: twenty (20) feet, and **REAR YARD**: twenty (20) feet.
3. The following are the minimum required setbacks for all structures except fences: **FRONT YARD**: forty-five (45) feet from the centerline of State Route 14 or fifteen (15) feet from the front property line, whichever is greater; **SIDE YARD**: five (5) feet, and **REAR YARD**: fifteen (15) feet.
4. The development shall comply with the fire safety provisions for the Small Woodland (F-3) Zone listed in Skamania County Code Section 22.14.050(A).
5. All buildings shall be surrounded by a maintained fuel break of fifty feet. Irrigated or fire-resistant vegetation may be planted within the fuel break, including green lawns and low shrubs (less than twenty-four inches in height). Trees should be placed greater than fifteen feet between the crowns and pruned to remove dead and low (less than eight feet) branches. Accumulated leaves, needles, and other dead vegetation shall be removed from beneath trees. Hazardous fuels shall be removed within the fuel break area.
6. Buildings with plumbed water systems shall install at least one standpipe at a minimum of fifty feet from the structure(s).
7. A pond, stream, tank or sump with storage of not less than one thousand gallons, or a well or water system capable of delivering twenty gallons per minute shall be provided. If a well pump is located on-site, the electrical service shall be separate from the dwelling.
8. Access drives shall be constructed to a minimum of twelve feet in width and not exceed a grade of twelve percent. Turnouts shall be provided at a minimum of every five hundred feet. The provision of at least one turnout on the access drive between the Wind River Highway and the new home site is required. Access drives shall be maintained to a level that is passable to fire equipment.
9. Telephone and power supply shall be underground whenever possible.
10. Roofs of structures shall be made of fire-resistant materials, such as fiberglass shingle or tile.

11. Any chimney or stovepipe on any structure for use with a wood stove or fireplace should be screened with no coarser than one-fourth inch mesh metal screen that is noncombustible and corrosion resistant and should be equipped with a spark arrestor.
12. All structural projections such as balconies, decks and roof gables should be built with fire resistant materials equivalent to that specified in the Uniform Building Code.
13. Attic openings, soffit vents, foundation louvers or other ventilation openings on dwellings and accessory structures shall be screened with no coarser than one-fourth inch mesh metal screen that is noncombustible and corrosion resistant. The administrator shall conduct a review of the development within one year to assure compliance with these fire safety provisions, embodied in SCC 22.14.050(A).
14. The accessory buildings shall not be used to establish separate dwelling units. Community Development Staff shall inspect the accessory structures before final approval to verify compliance with this condition.
15. Only grading that is necessary for site development (building pads, utilities, etc.) is permitted. Grading activities shall be limited to the maximum extent practicable. All graded areas left bare shall be re-seeded with native vegetation promptly and before final inspection by the Community Development Department.
16. Project applicants shall be responsible for the proper maintenance and survival of all newly planted vegetation.
17. The applicant shall meet all conditions of approval enacted to achieve visual subordination before final inspection by the Community Development Department. The applicant is to coordinate all inspections with the Building Division. A final inspection approval will not be issued until compliance with all conditions of approval, including visual subordination criteria has been verified.
18. The Community Development Department will conduct at least two site visits during construction, one siting inspection to verify the staked location of the structures before any ground disturbance takes place, and a second to be conducted after all foundation excavation has been completed, including framing footers, but before pouring the foundation. A site visit for Final Inspection shall also be conducted. Each inspection may take up to four business days from the time of calling for the inspection. Inspections should be arranged by calling the Community Development inspection line at 509-427-3922 or by emailing permitcenter@co.skamania.wa.us.
19. The exterior includes, but is not limited to, sides, doors, garage doors, decks, gutters, roofs, and trim. The following colors submitted by the applicant are consistent with this condition and are hereby approved: Posts- Pressure-treated wood posts – Appears Brown, Roofing- ASC Building Products 12" Skyline Roofing – Old Town Gray, Swimming Pool Basin- Dark earth tone tile & Plaster. Any proposed changes to these colors shall be submitted for review by the Community Development Department before to construction.

20. The exterior of the proposed structure will be comprised of non-reflective materials.
21. All exterior lighting shall be hooded or shielded at a 90° angle. Hoods/shields should be made of a non-reflective, opaque material that does not allow light to pass through.
22. Except as is necessary for construction of access roads, building pads, leach fields, etc., all existing tree cover shall be retained in the area shown on the approved site plan. Dead and dying screening trees shall be replaced in kind.
23. New fences in deer and elk winter range shall be allowed only when necessary to control livestock or pets or to exclude wildlife from specified areas, such as gardens. Fenced areas shall be the minimum necessary to meet the needs of the project applicant. The proposed pool fence is intended to protect public safety and is not required to meet the deer and elk winter range design provisions of this section. No further review of wildlife habitat protection is required.
24. An Inadvertent Discovery Plan embodying the provisions of SCC 22.22.060 and SCC 22.22.070 shall be prepared and posted in a conspicuous place at the development site and shall remain posted until final approval is granted for this project. A standalone copy of Sections 22.22.060 and 22.22.070 shall be provided with the building permit. The cultural resource protection review process is concluded.
25. The following procedures shall be affected when cultural resources are discovered during construction activities:
 - a. Halt Construction. All construction activities within 100 feet of the discovered cultural resource shall cease. The cultural resources shall remain as found; further disturbance is prohibited.
 - b. Notification. The project applicant shall notify the Administrator and the Gorge Commission within twenty-four (24) hours of the discovery. If the cultural resources are prehistoric or otherwise associated with Native Americans, the project applicant shall also notify the Indian tribal governments within twenty-four (24) hours.
 - c. Survey and Evaluations. The Gorge Commission shall survey the cultural resources after obtaining written permission from the landowner and appropriate permits from the DAHP (See Revised Code of Washington 27.53). It shall gather enough information to evaluate the significance of the cultural resources. The survey and evaluation shall be documented in a report that generally follows the provisions in Section 22.22.030 of this Chapter. Based upon the survey and evaluation report and any written comments, the Administrator shall make a final decision on whether the resources are significant. Construction activities may recommence if the cultural resources are not significant.
 - d. Mitigation Plan. Mitigation plans shall be prepared according to the information, consultation and report provisions contained in Section 22.22.050 of this Chapter. Construction activities may recommence when conditions in the mitigation plan have been executed.

26. The following procedures shall be affected when human remains are discovered during a cultural resource survey or during construction. Human remains means articulated or disarticulated human skeletal remains, bones or teeth, with or without attendant burial artifacts.
- a. Halt of Activities. All survey, excavation and construction activities shall cease.
 - b. Notification. Local law enforcement officials, the Administrator, the Gorge Commission, and the Indian tribal governments shall be contacted immediately.
 - c. Inspection. The county coroner, or appropriate official, shall inspect the remains at the project site and determine if they are prehistoric/ historic or modern. Representatives of the Indian tribal governments shall be contacted immediately and have an opportunity to monitor the inspection.
 - d. Jurisdiction. If the remains are modern, the appropriate law enforcement official shall assume jurisdiction and the cultural resource protection process may conclude.
 - e. Treatment. The procedures set out in RCW 27.44 and 68.05 shall generally be implemented if the remains are prehistoric/ historic. If human remains will be reinterred or preserved in their original position, a mitigation plan shall be prepared in accordance with the consultation and report requirements set out in Section 22.22.050 of this Chapter. The mitigation plan shall accommodate the cultural and religious concerns of Native Americans. The cultural resource protection process may conclude when conditions set forth in Section 22.22.050(C) of this Chapter are met and the mitigation plan is executed.

Dated and signed this 17th day of June, 2025, at Stevenson, Washington.

Melissa Fahrni, Land Use Planner I
Skamania County Community Development

NOTE:

Any new development not included in the approved site plan on file with the Skamania County Community Development department will require a new application and review.

EXPIRATION:

As per SCC §22.06.150(A), this Administrative Decision approving a proposed development action shall become void in two years if the development is not commenced within that period, or once development has commenced the development action is discontinued for any reason for one continuous year or more.

If the development does not include a structure the permit shall expire two years after the date the land use approval was granted unless the use or development was established according to all specifications and conditions of approval in the approval. For land divisions, "established" means the final deed or plat has been recorded with the county auditor.

If the development includes a **structure** the permit shall expire when construction has not commenced within two (2) years of the date the land use approval was granted; or once the structure has been started and if the structure has not been completed within two (2) years of the date of commencement of construction the permit shall expire. Completion of the structure for this purpose means the completion of the exterior surface(s) of the structure; and compliance with all conditions of approval in the land use approval, including, but not limited to, painting of the exterior of the structure.

APPEALS:

The Director reserves the right to provide additional comment and findings of fact regarding this decision, if appealed.

This Administrative Decision shall be final unless reversed or modified on appeal. A written Notice of Appeal form must be filed by an interested person within 20 days from the date hereof. Appeals are to be made to the Skamania County Hearing Examiner, P.O. Box 1009, Stevenson, WA 98648. Notice of Appeal forms and mailing lists are available at the Community Development Department and must be accompanied by a \$3,450.00 nonrefundable-filing fee and a Certificate of Mailing.

The final determination of the Environmental Threshold Determination related to this underlying government action can be appealed to a court of competent jurisdiction, along with the underlying government action, only by the parties with standing to the Environmental Threshold Determination. If the underlying government action was exempt from SEPA review, this section does not apply.
